Epson® SureColor V7000 Printer

This remarkable UV flatbed printer offers endless printing possibilities.

Experience a new level of image quality, productivity and convenience with the ultra productive SureColor V7000 4' x 8' UV flatbed printer. Featuring 10-color UltraChrome® UV Ink, including vivid Red Ink, opaque White Ink and eye-catching varnish, the SureColor V7000 delivers bright, colorful, tactile prints with low graininess and smooth gradation. Capable of printing on a variety of media, including rigid substrates, this UV flatbed printer is a flexible, reliable solution perfect for printing outstanding-quality outdoor signage, promotional goods and more. Designed with ease-of-use in mind, the SureColor V7000 enhances efficiency and accuracy with a variety of unique features, including a multi-zone vacuum system that keeps materials securely in place and automatic thickness adjustment to instantly accommodate media up to 3" thick.

SureColor V7000

Built-in Ionizer
Removes static electricity for enhanced durability and reliability

Low Graininess
Epson printhead features variable droplet technology for highly accurate prints

High Production Speeds
State-of-the-art design delivers outstanding-quality prints at true production speeds, with minimal speed loss while printing two and three layer prints

Rigid Printing
Print directly onto rigid substrates, foam board, poster board, real estate signage, in-ground posters and more

High Image Quality
Achieve stunning prints on a variety of media with vibrant, 10-color UltraChrome UV Ink

Media Thickness up to 3"
Printer automatically detects and adjusts to accommodate media up to 3" thick for virtually endless printing possibilities

White Ink and Varnish
Allows for rich, high-quality prints on a variety of materials, including wood, metal and acrylic; print glossy finishes, textures and more

Multi-Zone Vacuum System
Four print zones easily hold media in place for increased productivity, accuracy and efficiency; no taping required
