## How To Use Ghost-Off

### OXIDATION REMOVER!

GHOST-OFF is a safe, ready to use product designed to quickly restore weather exposed surfaces by easily removing oxidation. This heavily concentrated mix of new surfactant technologies is a simple 1-2-3 step process with amazing visual results. Fades "ghost" images of completely removed vinyl so vehicles are no longer haunted by the past. Also a great surface prep.

Another **GREEN** CRYSTALTEK product from West End Products, LLC  
Biodegradable, non-toxic, non-flammable

### Step by Step

1. Thoroughly drench dry surface.
  - Spraying preferred, pre-rinsing optional.
2. Allow up to 1 minute dwell time.
  - Agitate with a *soft* brush, sponge, etc.
  - Product may dry quickly when used in hot-dry weather. Re-soak as needed.
3. Wash off.
  - Rinse thoroughly! Ghost-Off rinses free even in cold water. Watch for the oxidation running off (like in the lower right picture by the front tire!)
4. Re-apply if needed.
  - Not intended as a weekly wash!
  - Even heavily oxidized surfaces rarely require a second round.
5. Use caution! This product may dry skin.
  - Use skin lotion to re-moisturize *after* thoroughly washing any exposed skin.
6. May be used as a surface prep before applying graphics or re-painting.
