How To Use Ghost-Off

OXIDATION REMOVER!

GHOST-OFF is a safe, ready to use product designed to quickly restore weather exposed surfaces by easily removing oxidation. This heavily concentrated mix of new surfactant technologies is a simple 1-2-3 step process with amazing visual results. Fades "ghost" images of completely removed vinyl so vehicles are no longer haunted by the past. Also a great surface prep.

Another GREEN CRYSTALTEK product from West End Products, LLC Biodegradable, non-toxic, non-flammable

Step by Step

- 1. Thoroughly drench dry surface.
 - Spraying preferred, pre-rinsing optional.
- 2. Allow up to 1 minute dwell time.
 - > Agitate with a soft brush, sponge, etc.
 - Product may dry quickly when used in hot-dry weather. Re-soak as needed.
- 3. Wash off.
 - ➤ Rinse thoroughly! Ghost-Off rinses free even in cold water. Watch for the oxidation running off (like in the lower right picture by the front tire!)
- 4. Re-apply if needed.
 - > Not intended as a weekly wash!
 - ➤ Even heavily oxidized surfaces rarely require a second round.
- 5. Us e caution! This product may dry skin.
 - Lise skin lotion to re-moisturize after thoroughly washing any exposed skin.
- 6. May be used as a surface prep before applying graphics or re-painting.
