Epson SureColor S60600

Epson SureColor S80600

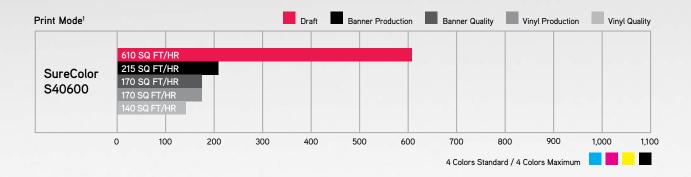

4-Colo

Unmatched Value

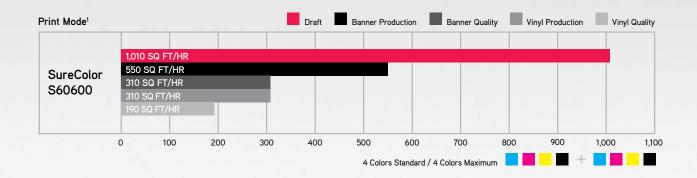

The 64" SureColor S40600 features newly developed Epson UltraChrome® GS3 4-color solvent ink for outstanding print quality, durability and media compatibility. With an all-new precision media feeding system and high-performance PrecisionCore® TFP® printhead, the SureColor S40600 is capable of producing sellable-quality banners at up to 215 square feet per hour¹, while also producing adhesive vinyl output at up to 170 square feet per hour¹ — making the new SureColor S40600 the ideal entry-level sign printer for print shops of any size.

A Performance Benchmark Has Been Set

Utilizing an all-new high-performance dual-array PrecisionCore TFP printhead, the SureColor S60600 is capable of producing sellable-quality banners at up to 550 square feet per hour! Newly developed Epson UltraChrome GS3 4-color solvent ink offers outstanding print quality, durability and media compatibility, and delivers near-photographic quality at the highest of production speeds, making the SureColor S60600 one of the most productive sign printers ever developed.

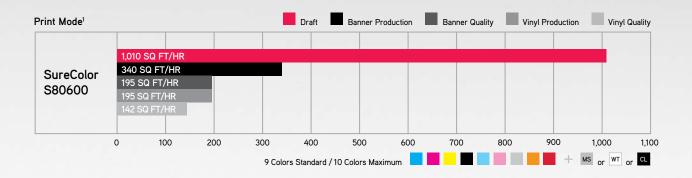

10-Color

True Photographic Signage

The pinnacle of signage printing, the SureColor S80600 features newly developed Epson UltraChrome GS3 9-color solvent ink — including an all-new Red solvent ink, along with the option for White or Metallic Silver ink — for outstanding photographic print quality, durability and media compatibility. With an all-new precision media feeding system and high-performance dual-array PrecisionCore TFP printhead, the SureColor S80600 is capable of producing sellable-quality adhesive vinyl output at up to 195 square feet per hour¹ — perfectly combining commercial-level productivity with photographic-quality output.

Rewards Program	Yes	Yes	Yes

- 1 All print speeds shown are based upon print engine speed only, in Bi-directional Mode. Total throughput times depend upon front-end RIP, file size, printer resolution, ink coverage, networking, etc.
- 2 The printer is designed to use only Epson ink cartridges and not other brands of new or refilled cartridges, or other brands of ink or bulk ink systems. Using Epson cartridges is important for reliable performance and high image quality.
- 3 Results based on Epson and Avery internal lamination testing at six hours after printing. Your results may vary based on environmental conditions, media type used, ink density, and other factors. For warranty information, please refer directly to the media and laminate manufacturer websites.
- 4 For one printer using the standard ink set in a room of at least 180 m³ with a minimum ventilation coefficient of 2.2. For more information, see the MSDS sheets at proimaging epson.com
- 5 The printhead is a maintenance part which the user is responsible for replacing when necessary. However, Epson covers head replacement while the printer is under the Epson Preferred™ Limited Warranty (original in-box) and under any Preferred Plus Plan (limited or unlimited number of head replacements, depending on the Preferred Plus Plan purchased). The life of the printhead will vary depending on the user's print volume, print patterns and heater temperature for print settings. Doing proper user maintenance of the printhead will help prolong its life.

Redefining Solvent Ink Technology

Epson knows color. Having revolutionized professional photography, we've now brought that same focus to our SureColor S-Series printers. UltraChrome GS3 solvent inks not only provide outstanding color density and brightness, but accurate color as well. Our 4-color ink configurations offer one of the highest color gamuts in the industry.

And, with the SureColor S80600 utilizing our unique Red and Orange solvent inks, sign makers no longer have to compromise color accuracy or gamut for production speed. When you add the ability to switch between White and Metallic Silver inks, you create a scenario where sign makers are only limited by their imagination, not by their printer.

Epson UltraChrome GS3 with Red

Epson UltraChrome GS3

Typical Latex or Older-Generation Solvents

Extreme Color Gamut

Whether you're printing with the standard 4-color system or full 9 colors, you can have confidence that you are delivering the best possible quality to your customers. No other form of signage printing can match the overall print quality, gloss level and vibrancy of our UltraChrome GS3 lnks.

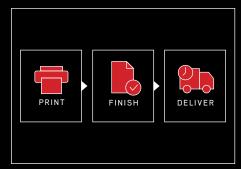

SureColor S-Series Rewards Program

An unprecedented program with unbeatable benefits. When using Genuine Epson consumables with your SureColor S-Series printer, you can earn discounted or free extended service coverage for up to 5 years.

Same-Day Lamination

S-Series printers are the first solvent printers to offer same-day lamination. Epson UltraChrome GS3 Inks allow for final lamination only six hours after printing.

Environmentally Responsible

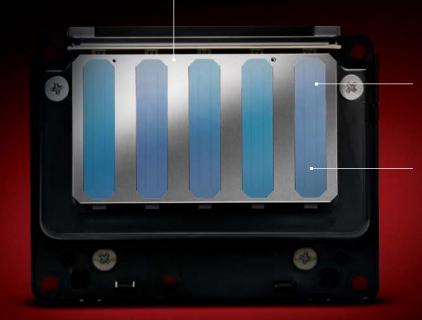

Our ink technology has achieved multiple certifications for indoor use, including Nordic Swan and GREENGUARD Gold Certification. In addition, no special ventilation or air purification is required.

Epson PrecisionCore TFP Printhead

Our most advanced printhead to date, the PrecisionCore TFP printhead, with Epson Precision Dot technology, can deliver significantly betterquality prints, faster and more reliably than virtually any other form of solvent-based printing.

Enhanced Variable Droplet Technology as small as 4.2 picoliters

Unique coating technology reduces the possibility of a nozzle clog

Powered by ONYX

Every SureColor S-Series printer comes with a copy of ONYX GamaPrint Pro, including support for sizing, tiling, nesting and more. Your SureColor S-Series Printer is a full solution right out of the box.

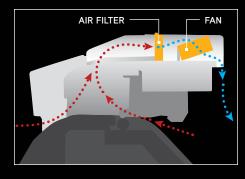

Auto Maintenance and Cleaning

By introducing a first-of-its-kind fabric wiping system, the SureColor S-Series automates the maintenance process to ensure your printer continues to operate at the high level you'd expect from an Epson product.

Air Filtration System

Working in harmony with the fabric wiper, the air filtration system removes contaminants from the environment to continuously keep internal printer components clean.

Epson Control Dashboard

Operate your S-Series printer from your computer with the Epson Control Dashboard. Run cleanings, check ink levels, update firmware and download new media profiles directly from Epson.

Easy to Operate

Load, configure and set up new media with the touch of a button in under four minutes. Save up to 30 settings and easily switch between media — this could be the simplest printer in your shop.

World-Class Service and Support

The best customer support organization in the industry is only a phone call away and can help you operate your new S-Series printer.
