White Toner Transfer Printer

9541WDT

crio®

A production-level print shop in a box! The only single pass 5-color, 5-station transfer system with cyan, magenta, yellow, black, and white (CMYKW) toners in one printer. Achieve the widest color gamut with brilliant colors, opaque white, and true black all in one paper pass.

Like all Crio® printers, the 9541WDT has a straight paper path to minimize jam points. This allows you to print on a wide variety of paper, film and transfer sheets up to 13" x 19" at an incredible 1200 x 1200 dpi resolution. Print more transfers faster, improving your production time by up to 50%. Larger sheets + faster prints = efficient & profitable production!

Any Color, Any Material

Create beautiful, vibrant prints that transfer onto hundreds of different light and dark materials such as cotton, polyester, denim, wood, acrylic, glass, metal, and more!

Print to Profit

Print 1 or 1000! With the white toner process, you don't need to set a minimum order quantity. You'll be able to accept one-offs to large custom orders and still profit.

No Weeding, No Problem

Crio® white toner transfers are self-weeding. There is no cutting and no weeding to deal with. Increasing production speed, saving both time and money.

Full Color, High Resolution

Easily print full-color, high-resolution designs or photographs with the widest color gamut up to 1200 x 1200 dpi to transfer even the finest of details.

Low Cost of Ownership

Crio® white toner printers require virtually no maintenance other than replacing standard consumables, as needed. Get additional cost savings by printing true black (K) instead of composite black (CMY).

Expert Support with CrioCare

From instructional how-to videos to free training, Crio® offers unparalleled support to ensure your success. For peace-of-mind, every Crio® printer also comes with a 2-year onsite warranty.
