## **FT48** **60" Finishing Table**

The **FT48** turns any roll laminator into a sign making, flatbed applicator for mounting or laminating rigid substrates and printed sheets by providing a faster, easier one-step roll application process. It combines a 60" W x 48" D roller ball transfer table with a cutting surface, both in one space saving accessory.

### **Compared to expensive flatbed applicators, the FT48 delivers...**

- *Lower cost*
- *Dual functionality*
- *Faster workflow*
- *Lightweight strength and durability*
- *Simple set-up/operation*
- *Comfortable 38" table height*
- *Two-sided work surface*
- *Space-saving portability*

**Use one table surface as an in-feed to a roll laminator for laminating, pre-coating or mounting boards up to 5' x 10'.**

**Use the back side as a worktable for trimming prints.**

**The Transfer table side** features 4 rows of transfer balls for easy positioning of images and precise alignment. It includes a full-length 48" side guide and printed alignment guides for straight feeding of standard board widths. Roll the table away and you have all the advantages of a roll laminator.

**The Cutting table side** allows easy alignment of graphics that need to be trimmed. The surface is thick, durable 180-gauge, 3/16" translucent Polyethylene (LDPE). Its seamless translucent white, non-glare surface can be cut with rotary cutters and utility knives repeatedly without leaving marks. This self-healing surface means more accurate cuts and less blade wear.

**Transfer table with side guides for straight feeding of boards.**

**Portable and easily storable.**

When you're done with your job, just fold the table 90 degrees and roll it out of the way until you need it again.

The **FT48** frame, made of strong, durable, light weight aluminum, has a better strength to weight ratio than steel.

**Cutting surface with self-healing mat to align graphics for trimming.**

**FT48 Specifications**

**APPLICATIONS**

- Mounting to substrate*
- Pre-coating boards*
- Photo mounting*
- Laminating to rigid surfaces*
- Laminating to vinyl prints*
- Pre-masking vinyl letters*
- Trimming images*
- Weeding vinyl letters*
- Aligning graphic images*

Outer dimensions when folded	70.5" W x 32" D x 61" H
Outer dimensions when operational	70.5" W x 49" D x 38" H
Table surface dimensions	61" W x 48" L x 2" H
Net weight	148 lbs.
Shipping dimensions	75" W x 69" L x 11" H
Shipping weight	319 lbs.
Caster height adjustment range	3/8"
Working table height	38"
